

REVALINA AURELLIA INDRAWAN

088213343786 | revalinaurellia@gmail.com | www.linkedin.com/in/ revalina-aurellia-indrawan

Information Systems student and certified Data Scientist (BNSP) with hands-on experience in data analysis, system architecture, and process automation. Dedicated to applying data-driven solutions to solve business challenges and enhance operational efficiency. Committed to leveraging analytical skills to streamline workflows and improve organizational performance.

Educational Level

Telkom University - **Bandung, Indonesia** Sep 2022 - Present

- GPA: 3.37 scale of 4.00

SMA Budi Mulia - **Tangerang, Indonesia** May 2019 - Jun 2022

Work Experiences

Intern - Otoritas Jasa Keuangan Feb 2026

- Stress Testing & Data Modeling
- Automation of Financial Data Processing
- International Policy Analysis
- Financial Services Sector Surveillance

Intern – PT Energi Mega Persada Jul 2025 - Sep 2025

- Developed an internal certification monitoring website for the HR department.
- Designed and implemented a system that allows HR to track employee certification status in real time.
- Enabled HR to easily identify certifications that are nearing expiration (within 3 months), already expired, or still valid.
- Improved efficiency in monitoring and decision-making processes by providing automated alerts and clear visualization of certification timelines.

Data Mining Of Prediction and Classification of Heart Disease Risk Factors

- Collected, cleaned, and preprocessed heart disease datasets for machine learning analysis.
- Implemented the Random Forest algorithm to predict potential heart disease risk based on clinical and demographic factors.
- Applied K-Means Clustering to group individuals based on similar risk factor patterns.
- Evaluated model performance using metrics such as accuracy, precision, recall, and silhouette score.
- Conducted data visualization to interpret the results and highlight significant features.
- Collaborated with team members to document findings and present insights in a final report and presentation.

TAMENG (Teknologi Aman Mandiri Untuk Negara)

- Conducted usability testing for TAMENG, an internal disaster response support application developed for RENHAN operations. The evaluation focused on assessing how easily personnel could navigate and utilize the application during emergency scenarios. The goal was to ensure that all features were accessible, efficient, and operable under urgent conditions, while also identifying potential usability issues that could hinder user interaction during disaster relief efforts.

System Analyst & UI/UX Designer – RENHAN Business Process Optimization and Humanitarian Operations App

- Analyzed system and user needs at RENHAN to facilitate business process improvements.Architected and detailed system design employing UML-based diagrams (Use Case, Component, Deployment).Defined core system functionalities and user workflows to ensure they met organizational objectives.Created iterative prototypes (low and high fidelity) to optimize the usability of the humanitarian operations application.

UX Designer – Mathilda Relaxation App

- Developed the user experience strategy and design for Mathilda, a digital wellness application with a focus on relaxation and user productivity gains.
- Employed user research methodologies (interviews, observations) to identify key user needs.
- Visualized user interactions and designed user-friendly interface structures through journey maps and layouts.
- Produced iterative prototypes (low-fidelity and high-fidelity) utilizing standard design software.
- Contributed to a 5-person team, implementing design thinking principles throughout the project.
- Project outcomes were recognized with strong academic results and favorable user feedback.

Organisational Experience

GENESIS 2024 Aug 2024 - Nov 2024

Guider

Genesis 2024 is a student leadership development program organized by the Information Systems Student Association. It serves as a cadre training initiative designed to cultivate leadership skills, organizational abilities, teamwork, and a strong sense of responsibility among new members.

- Guided and mentored participants throughout the leadership training program.
- Provided motivation and emotional support to ensure participant engagement and growth.
- Monitored participants' character development and delivered regular evaluations.
- Acted as a role model in demonstrating discipline, responsibility, and leadership.
- Delivered soft skill sessions on topics such as teamwork, communication, and problem solving (as needed).

Certification, Achievements & Skills

- **Sertifikasi Kompetensi Data Scientist – BNSP** (2026)
- **Aguna Course - Linux Fundamental** (2024)
- **Aguna Course - Virtual Machine Fundamental** (2024)
- **EPRT (English Proficiency and Readiness Test)**: Score 480
- **Soft Skills**: Critical Thinking, Problem Solving, Leadership, Time Management, Teamwork, Public Speaking
- **Hard Skills**: Microsoft Office, Figma, Visual Paradigm 17.2, Python, PHP, HTML, CSS, Bizagi , Visual Source Code, Laravel,Github, Oracle, Virtual Box, VMware, Cisco Packet Tracer, Manage Engine Service Desk, MySQL Workbench, XAMPP Control Panel, Laragon, Jira, PhpMyAdmin
- **Languages**: Indonesian, English
